RCHK 2011 Personal Project Work-In-Progress Fair

Dear Parents,

As you are aware the Year 11 students have been working hard at completing their “products” for their individual MYP Personal Projects. They have been hard at work since last May planning, researching, developing and crating these products of their own choosing.

To showcase their progress thus far there will be a **Work-in-Progress Fair** at RCHK from on **Thursday 8th of December** from **4:00 pm to 5:30 pm**. This fair will be held in the PAC. The Fair is held so that students, parents, teachers and supervisors can view the work that had been completed by the Year 11 students thus far. It allows the students to examine different types of projects and reflect on their own product with their supervisor and parents before starting their Personal Project Reports. It also provides students an opportunity to showcase all they have accomplished at this point to help keep them motivated!

Students were REQUIRED bring in their product (**finished or not**) to school before November 18th to show to their individual supervisors. They will then bring in the products December 8th for the Work-in-Progress Fair, all of the products will be on display during the fair.

***Students new to Year 11 this year are on a different timeline and therefore will not have a product for this fair. However, it is compulsory that they attend the fair so they can see other projects, ask questions and learn more about the process and expectations that await them.*

Please feel free to come by to see the students’ projects and celebrate the work of the Year 11 students.

Best Regards,

Brandy Stern
Personal Project Coordinator
